

Widget help

The symbols on the Plugins and System Settings page are called "widgets". On the System Settings page, every widget controls settings for your LoxBerry.

You can access locally stored, context-sensitive help on every page with the  symbol on the top-right corner.

In this Wiki section you'll also find this help, and additional information and hints about the settings of the widgets.

Widget My LoxBerry

Widget Admin Access

Widget Miniserver

Widget Network

Widget Plugin Management

Widget Updates

Widget Log Manager

Widget LoxBerry Services

Widget Reboot / Power

Widget Setup Assistant

Widget Translate

Widget Filemanager

Widget Netshares

Widget USB Storages

Widget Remote Support

Widget MQTT

Widget Donate :-)

Further information

- Every plugin and every system widget may show blue and/or red information bullets (blue = information, red = error). It informs about notifications in the plugin or system widgets.
