

Widget Filemanager

LoxBerry allows access to the LoxBerry filesystem by a web interface.

SecurePIN

LoxBerry requests the [SecurePIN](#) to protect your filesystem.

The screenshot shows a web-based file manager interface. The breadcrumb at the top is '/ opt / loxberry'. The table below lists files and folders with columns for Name, Size, Modified, Perms, and Owner. Each row has a checkbox on the left and icons on the right for file actions.

The *Filemanager* widget allows access to all files starting at /opt/loxberry. Select files by the checkbox on the left, and take actions with the icons on the right.

The full path is shown in the breadcrumb on top.

To **leave** the Filemanager, use the Exit icon  on the top-right corner.
