# Widget Setup Assistant

> **Discontinued**
>
> This feature was removed in LoxBerry V3.0. Please use Teamviewer or AnyDesk or any similar software.

The Setup Assistant guides you through the first settings. It also configures the loxberry and root account of your LoxBerry. **Store all passwords and the SecurePIN - they are important.** Loosing these credentials may require you to re-install LoxBerry at any point where troubleshooting is required.
